Paul,

Can you be onsite today at 8:30am in the Pres office? We are moving furniture for your work Tuesday starting at 9pm.

Thanks

Mark

Subject: President Office Color

Importance: High

Paul,

The Color chosen is Dune White # 968 for all of the interior walls in the President's Office. There should be no maroon paint left in her office.

Thanks

Mark

Paul,

To follow up on the whiteboard paint. In lieu of using the white board paint and having to finish the specified wall to a true level 5 finish the school would like to paint the remaining walls in the room with the color that is to be selected by the President.

Thank you,

David Horton, RA

Paul,

Change in plans for the whiteboard paint on wall. This specific paint is being eliminated and is NOT Required. This wall is to be painted the same color as the other new walls.

Can you get me interior color samples of light and neutral colors for the President to pick for painting all of the walls. Required this week!!

Thanks

Mark

I thought the scope included moving the receptacles and data ports out to the face of wall. There may be remounting of a screen as well.

This is just to put up a sound proofing wall with whitboard paint on it. It will be placed 1" away from the existing wall. What I don't see is how are we going to be able to access these once the wall goes up. Are there going to be hole or access panels in there for us?

Manny

No furniture is part of this work.

Any electrical should be assessible correct David?

Paul,
I wanted to confirm that all electrical and data will be pulled forward to the face of the new wall as part of this project. Please confirm when you have a chance.

Paul,

As discussed and confirmed on the Phone, Bentley is to mobilize on February 18th, third shift and complete all work in the President's Office from 2/18 thru 2/24/2020 third shift. Inclusive of painting the entire ceiling.

Supply the required manpower to get this completed within the week time frame. On 2/24/2020 third shift, fully clean the space for the President to move back in on the morning of 2/25/2020.

Thanks

Mark

Paul,

You may need an electrician to bring forward or extend the electrical to the face of the new wall.
